Mr. Timothy L. Nord
Hanford Project Manager
State of Washington
Department of Ecology
Mail Stop PV-11
Olympia, Washington 98504-8711

Dear Messrs. Day and Nord:

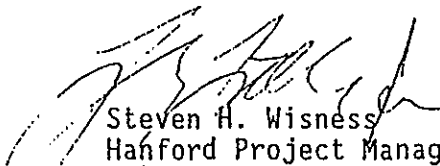

DRAFT A OF REMEDIAL INVESTIGATION AND FEASIBILITY STUDY (RI/FS) WORK PLAN FOR THE 200-UP-2 OPERABLE UNIT

The current Hanford Federal Facility Agreement and Consent Order (Tri-Party Agreement) requires that the work plan for the 200-UP-2 Operable Unit be submitted to the State of Washington Department of Ecology (Ecology), which is the lead regulatory agency, and the U.S. Environmental Protection Agency (EPA) by June 28, 1991. The 200-UP-2 operable unit is a source and groundwater operable unit and was developed in accordance with the requirements of the Comprehensive Environmental Response, Compensation and Liability Act, as implemented through the Tri-Party Agreement.

Based on approval of Change Package M-12-90-4, currently in public review, continuation of the regulatory review and approval cycle for the 200-UP-2 Work Plan will be terminated. The 200-UP-2 Work Plan may be resubmitted in June 1992, (M-12-15) after rescoping has been completed based on the results of the U-Plant Aggregate Area Management Study. Therefore, the subject work plan is enclosed for information only and not for review or comments.

If you have any questions or require additional information, please contact Mr. Paul Pak on (509) 376-4798.

Sincerely,

Steven H. Wisness
Hanford Project Manager
